SUBJECT: Interim Letter to Representative Wolf

With respect to your attached note regarding the Office of Personnel's tardiness in providing a final response to the congressman, it is not OP's fault. The reason for the interim response is that the final response must be cleared through OMB and they could take forever. OP provided the final response which we received around the end of June and proceeded to tidy up. Because of the secretarial shortage and the OCA conference, you did not receive it for signature until recently.
